- **LARGER LIGHT DUTY MODELS.** Available in Direct Drive only.
- **SEMI PROFESSIONAL MODELS.** With Gear Reduction, heavy duty shafts & Bearings.
- **PROFESSIONAL MODELS.** With double Gear Reduction Drive, Heavy Duty Shaft and Bearings.

PROFESSIONAL MODELS

All of our presses are
of a proven design.

Professional Model Presses

With **DOUBLE REDUCTION DRIVE, HEAVY DUTY SHAFTS and BEARINGS.**

These are a much larger range of presses, built using Hilldav's unique design. They are used by Professional Print Makers, Colleges of TAFE and Universities.

This range of presses has a large Hand Wheel of 1,016 mm (40") Diameter driving through Double reduction gearing with a ratio of 16:1 to the Bottom Roller giving the operator the best touch and feel of the work as it passes through the rollers. Both the top and bottom roller are 216 mm (8½") Dia. The top roller is fine machined and ground, while the bottom roller is Coarse machined. The bed plate has adjustable bearings for both height and guidance.

The largest press that we make
the 1m-2m Press.

28-54 Model press

36-54 Model press
in use.
